## **MACHO REVOLUTIONIZES SPARRING HEADGEAR...**

Macho SparTec is the most technologically advanced headgear in the martial arts market.

Macho spent three years in development, worked with leading martial artists and enlisted the foam expertise of this its sister company, MDI Products, LLC, to develop, design and manufacture this high-performance headgear.

**The result:** Macho SparTec is the safest, best performing injection-molded headgear on the market.

# WARNING

## GENERAL WARNINGS AND GUIDELINES

Martial Arts sparring may be dangerous; participants risk serious injury, disability and death. MACHO sparring equipment is intended only to reduce the risk and severity of accidental injury to covered areas during supervised, no contact or light contact martial arts sparring. Light contact (blunt force) does not cause pain, injury, penetration, or visible movement of the opponent receiving the technique. Use of MACHO sparring equipment does not eliminate risks of injury. USER ASSUMES ALL RISKS. MACHO equipment is for martial arts sparring only.

# WARNING

- Serious head, face, eye, and neck injuries, including cuts, bruises, blindness, fractures, paralysis, disability, and death may occur from accidental strikes, blows, and falls. Wear Macho headgear only to reduce the risk and severity of accidental injury from no contact to light contact Martial Arts sparring supervised by a qualified instructor. No gear can prevent all injuries; Macho does not guarantee protection.
- Inspect the gear before each use. If it becomes cracked or damaged in any way (including the XP interior trauma plates), discard and replace it immediately.
- Properly size, fit, position, and secure your headgear to optimize protection. Properly sized and adjusted to your head, there should be very little airspace in, or movement of, the gear.

EctoCell Proprietary Injection-Molded Foam Formulation. Virtually indestructible, only by Macho.

Functional hole placement. Enhances hearing, ventilation and comfort.

Signature Ear-Release Canal with Impact Dispersing Trauma Plates. Low profile around ear without sacrificing protection.

Two-way adjustment on chin and at the back of the head for a secure fit. Fixed strapping system minimizes spinning.

**High-Impact Rated:** Testing was conducted to all three critical strike zones of the head – the front, sides and back. Macho SparTec outperformed all other molded headgear.
